

INC20D Infrared Heater

Infracalm 400V 2000W, IP24

Item number: 190095

Discreet infrared heater with soft heat

Infracalm provides year round comfort to wind protected outdoor areas such as balconies, patios and restaurant terraces. The infrared heater creates no light and is the perfect choice when you are looking for a discreet solution. Infracalm is also suitable for temporary heating, e.g. in premises that are used occasionally, or for spot heating.

- Max. element temperature 750 °C
- Electrical heat rod of stainless steel and reflectors of high-gloss polished aluminium with maximum resistance against corrosion.
- Recommended installation height 2-2,5 m
- IP24

Technical parameters

Installation

Maximum installation height	2,500	mm
-----------------------------	-------	----

Nominal data

Color casing	Grey alu-zink
Color casing, RAL	RAL 7046
Enclosure class	IP24
Ambient working temperature (dry conditions)	-20 to 30 °C

Dimensions and weights

Width	2,181	mm
Height	50	mm
Depth	100	mm
Weight	3.7	kg

Electric heat

Input power, heater	2	kW
Current heating	5	A
Voltage heating	400	V
Phase(s)	2~	
Maximum element temperature	750	°C

Accessories

- CBT Timer (10740)
- PDK65 Presence detector kit (211780)
- RTX54 External roomtemp sensor (93044)
- TAP16R Electronic thermostat (92790)
- CIRT Stepless control w. timer (10739)
- RB3 Relay Box (93012)
- SKG30 Black bulb sensor (205550)
- TEP44 Protective cover IP44 (205540)
